

Applicable NRCS Practices for the Climate Beneficial Fiber Partnership	NRCS Practice Standard #
Alley Cropping	311
Bale or Swath Grazing	528P
Combustion System Improvement	372
Compost Facility	317
Conservation Cover	327
Conservation Crop Rotation	328
Contour Buffer Strips	332
Cover Crops	340
Critical Area Planting	342
Energy Efficient Agricultural Operation	374
Energy Efficient Building Envelope	672
Energy Efficient Lighting System	670
Fence	382
Field Borders	386
Filter Strips	393
Forage Harvest Management	511
Forest Farming	379
Forest Stand Improvement	666
Grassed Waterways	412
Hedgerow Planting	422
Herbaceous Wind Barrier	603
Irrigation Water Management	449
Livestock pipeline	516
Mulching	484
Nutrient Management	590
Pasture and Hay Planting	512
Prescribed Grazing	528
Range Planting	550
Residue and Tillage Management, No Till	329
Residue and Tillage Management, Reduced Till	345
Riparian Forest Buffer	391
Riparian Herbaceous Cover	390
Silvopasture	381
Soil Carbon Amendment	336
Stripcropping	585
Tree/Shrub Establishment	612
Upland Wildlife Habitat Management	645
Vegetative Barrier	601
Watering Facilities	614
Wetland Restoration	657
Wetland	659
Wildlife Habitat Planting	420
Windbreak and Shelterbelt Establishment	380
Windbreak and Shelterbelt Renovation	650
